GoodLike

P.Lion i had in ILZDC 24, in that one i've received Ken Laszlo, nice gadget. When you put it on the shelf and take it after few months you will get very nice dust free hole.

Shadowbourne

When you check the printed circle on the CD then you can see a number, but my catalog number there was not real listet ZYX 82729-2 2 and i see text WE LOVE RUNNING and partially tracklist like Moonlight Shadow Radio Edit

Bu

My theory is they are using up old unsold CDs instead of destroying them. Does anyone's IFPI match another release?

Bundis

I see the CD inner ring has an IFPI, so why and how they produce this?
